Building and Safety Division

School Fees

Beginning January 1, 1989, all applicants for building permits involving new residential, commercial, or industrial construction, and remodeling that creates additional square footage will be required by State of California Government Code 53080 (State Assembly Bill 2926) to pay school fees to local school districts. A Certificate of Compliance from said school districts is required before the City of Montclair is authorized to issue the building permit.

For projects within Montclair, applicants will be required to pay the fees established by each district, **and obtain certificates of compliance** from the following school districts:
